

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

	Section 1 - Ide	ntification					
Product Identifier	RSC #17 INCREDILOSO™ - LAVENDER Multi-Purpo	ose Cleaner / Deodorizer					
Other means of identification	4087						
Recommended use	Multi purpose cleaner.						
Recommended restrictions	For commercial and industrial use only.						
Manufacturer / Importer / Supplie	er / Distributor Information						
Company Name	National Chemical Laboratories of PA, Inc.						
Address	401 N. 10th Street - Philadelphia, PA 19123						
Telephone	1 (215) 922-1200						
Supplier Email	info@nclonline.com						
Contact	CHEM-TEL						
Emergency Phone	1 (800) 255-3924						
	Section 2 - Hazard(s	s) Identification					
SDS Hazards and	Warnings are based on the undiluted product. Re	-	d Warnings.				
Dhusiaal Useevela	Classification	Category					
Physical Hazards	Not Classified	2A					
Health Hazards	Serious eye damage/eye irritation	ZA					
OSHA defined hazards	Not Classified.						
Label Elements Hazard Symbol							
Signal Word	Warning						
Hazard Statement	Causes serious eye irritation.						
Precautionary statement							
Prevention	Wash thoroughly after handling. Wear eye/face	protection.					
Response	Wash thoroughly after handling. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and						
	easy to do. Continue rinsing. If eye irritation pers	-	······				
Storage	Store away from incompatible materials.						
Disposal	Dispose of contents/container in accordance with	n local/regional/national/international regulation	S.				
Hazard(s) not otherwise classified (HNOC)	None known.						
	Section 3 - Composition/Info	ormation on ingredients					
Mixture							
Hazardous Components	Ingredient Name	CAS #	%				
	Sodium dodecylbenzenesulfonate	25155-30-0	0.1 - 1				
	Alcohol ethoxylate	68131-39-5	0.1 - 1				
	Section 4 - First-	aid Measures					
Inhalation	Move to fresh air. Get medical attention if irritati	on persists.					
Skin contact	Wash skin with soap and water. Get medical atte	•					
Eye contact	Immediately flush eyes with plenty of water for a Continue rinsing. Get medical attention if irritation		sent and easy to do.				
Ingestion	Rinse mouth. Get medical attention if irritation p	ersists.					
Most Important symptoms /effects, acute and delayed	Severe eye irritation. Symptoms may include stin						
Indication of immediate medical attention and special treatment	Provide general supportive measures and treat s	ymptomatically. Keep victim under observation. S	ymptoms may be delayed.				

Ganaral Information		
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.	
	Section 5 - Fire-fighting measures	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.	
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.	
General fire hazards	No unusual fire or explosion hazards noted.	
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.	
	Section 6 - Accidental release measures	
Personal precautions, protective equipment and emergency procedures.	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.	
Methods and materials for containment and cleaning up	SMALL SPILLAGE: Absorb spillage with suitable absorbent material. Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.	
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.	
	Section 7 - Handling and storage	
Precautions for safe handling	Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.	
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).	
	Section 8 - Exposure control/personal protection	
Occupational exposure limits	No exposure limits noted for ingredient(s).	
Biological limit values	No biological exposure limits noted for the ingredient(s).	
Exposure guidelines	Use personal protective equipment as required. Keep working clothes separately.	
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station. Provide adequate ventilation and minimize the risk of inhalation of vapors and mists.	
	inhalation of vapors and mists.	
Individual protection measures, s	inhalation of vapors and mists. such as personal protective equipment	
Individual protection measures, s Eye/face protection		
Eye/face protection Skin protection	such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields.	
Eye/face protection Skin protection Hand protection	such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use.	
Eye/face protection Skin protection Hand protection Other	such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing.	
Eye/face protection Skin protection Hand protection Other Respiratory protection	such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection.	
Eye/face protection Skin protection Hand protection Other Respiratory protection Thermal hazards	such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary.	
Eye/face protection Skin protection Hand protection Other Respiratory protection	such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection.	
Eye/face protection Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene	such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,	
Eye/face protection Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	 Such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. 	
Eye/face protection Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	Such as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties	
Eye/face protection Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	Furth as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear.	
Eye/face protection Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	Stuch as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid.

Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Similar to water.
Vapor density	Similar to water.
Relative density	1.00 ± 0.01
Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	100 % Soluble.
Partition Coefficient n-	Not available
octanol/water	
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 10 cSt
Viscosity Temperature	75 °F (23.9 °C)

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable at normal conditions.
Possiblity of hazardous reactions	Hazardous polymerization does not occur.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition	Carbon oxides. Nitrogen oxides.
Products	

Section 11 - Toxicological information

Information on likely routes of	exposure			
Ingestion	No adverse effects due to ingestion are expected.			
Inhalation	Under normal conditions of intended use, this material is not expected to be an inhalation hazard.			
Skin contact	Prolonged or repeated skin contact may cause drying, cracking, or irritation.			
Eye contact	Causes serious eye irritation.			
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.			

Information on toxicological effects.

Acute toxicity	Not expected to be acutely toxic.			
Skin corrosion/irritation	Prolonged or repeated contact may dry skin and cause irritation.			
Serious eye damage/ eye irritation	Causes serious eye irritation.			
Respiratory sensitization	This product is not expected to cause respiratory sensitization.			
Skin sensitization	This product is not expected to cause skin sensitization.			
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.			
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.			
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.			
Specific target organ toxicity - single exposure	Not classified.			
Specific target organ toxicity - repeated exposure	Not classified.			
Aspiration hazard	Not classified.			

Section 12 - Ecological Information				
Ecotoxicity		The product contains a substance	which is very toxic to aquatic organisms.	
Component(s) Alcohol ethoxylate, 68131-39-5				
Aquatic				
Level	Туре	Code	Species	Test Results
Acute	Crustacea	EC50	Water flea (Ceriodaphnia dubia)	0.37 - 0.43 mg/l, 48 hours

Crustacea	EC	50	Water flea (Daphnia magna)	0.39 -0.56 mg/l, 48 hours
Fish	LC	50	Rainbow trout,donaldson trout (Oncorhynchus mykiss)	0.775 - 1.3 mg/l, 96 hours
Fish	LC	50	Flathead minnow (Pimephales promelas)	0.72 -2.7 mg/l, 96 hours
Persistence and degradability	The product is expected to be biodegradable.			
Bioaccumulative potential	Not known.			
Mobility in soil	No data available.			
Mobility in general	The product is water soluble and may spread in water systems.			
Other adverse effects	None known.			
	Section	13 -	Disposal considerations	
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.			
Local disposal regulations	Dispose of in accordance with local regulations.			
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.			
Waste from residues / unused products	Dispose in accordance with all applicable regulations.			
Contaminated packaging	Since emptied containers ma	ay retai	in product residue, follow label warnings even a	fter container is emptied.
	Section	n 14	- Transport information	
DOT	Not regulated as dangerous g	roodc		

DOT	Not regulated as dangerous goods.
ΙΑΤΑ	Not regulated as dangerous goods.
IMDG	Not regulated as dangerous goods.
Transportation in bulk	This substance/mixture is not intended to be transported in bulk.
according to Annex II of	
MARPOL 73/78 and IBC Code	

Section 15 - Regulatory Information

US federal regulations	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.			
	•		EPA TSCA Inventory List.	
TSCA Section 12(b) Export Notification (40 CFR707, Subpt. D)		Not regulated.		
US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-2		•
