Stone Care Solutions™

*From the leader in surface
maintenance and coatings technology...*

*A stone care program
for long term beauty and protection!*

World Class Cleaning Solutions®

Stone Care Solutions™

Restore and maintain your facility's natural stone?

now you
now *you* can do it!
can do it!

STONE CARE SOLUTIONS™ from NCL is a complete, professional program for the restoration, protection and long term maintenance of natural stone and ceramic surfaces. This coordinated system allows you to maintain your natural floor surfaces, countertops, tables and other areas at peak polish levels, while protecting the surface from spills and staining.

For over 50 years, discriminating sanitary maintenance professionals have trusted the performance and quality of the products from National Chemical Laboratories.

At NCL, all of our efforts are driven toward the development of new, innovative products and systems designed for exceptional performance while saving you time, labor and money.

STONE CARE SOLUTIONS™ offers you maximum performance with user-friendly, stone-specific products for maintaining almost any natural stone or ceramic tile surface. This comprehensive program is designed for building service contractors and in-house facility service providers, and does not require years of technical experience with abrasive methods!

...does *not* require years of technical experience with abrasive methods!

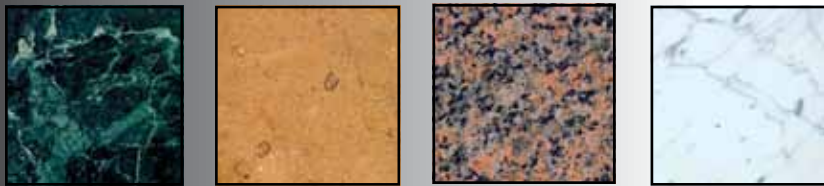

For simple, effective natural stone restoration, polishing and maintenance National Chemical Laboratories is your best solution!

Bank of America Building, Ft. Lauderdale, FL maintained using NCL LUMINAIRE™ Diamonds, ONE STEP™ Spray N' Buff Crystallizer and STONE BLAZER™ Ultimate Duty Stone Restoration Machine.

High School hallway maintained using NCL ROCK HARD™ Step 1 - Stone Hardener and DIAMOND GLOSS™ Step 2 - Stone Rejuvenator.

Easy-to-follow programs for superior gloss & protection.

MARBLE CARE

Complete programs for marble and limestone. Products for abrasive polishing, natural polishing, crystallization, daily and interim maintenance, stain removal and restorative cleaning.

TERRAZZO CARE

Revolutionary 2-step process that creates the hardest, most durable scratch and scuff resistant polish on terrazzo floors. Includes daily and interim maintenance, stain removal and restorative cleaning.

NATURAL STONE CARE

Includes daily and interim maintenance, stain removal and restorative cleaning of limestone, sandstone, slate, quartz, onyx and other natural stone surfaces.

GRANITE CARE

Includes polishing and maintenance systems for all types of granite floors; polished, honed and flame cut. Products for abrasive polishing, natural polishing, crystallization, daily and interim maintenance, stain removal and restorative cleaning.

CERAMIC CARE

Unique system that can actually polish and restore old, worn ceramic tile floors. Brightens and removes stains from grout. Includes products for long term grout protection and daily maintenance.

QUARRY TILE CARE

For quarry tile, terra cotta, pavers, and monocottura and saltillo tiles. Includes daily and interim maintenance, stain removal and restorative cleaning.

Training... the key to exceptional results!

Proper instruction and hands-on training of your personnel will help you produce outstanding results with STONE CARE SOLUTIONS product systems at your facility.

NCL provides training through a network of dedicated product distributors, who can provide on-site training on proper product use and instruction on the correct technique for restoring and maintaining all types of natural stone.

The NCL University, conducted at our Philadelphia, PA Training Center, is a unique learning environment where maintenance professionals receive intensive training on a wide variety of natural stone surfaces. It includes classroom and hands-on instruction, focusing on surface characteristics and identification, review of STONE CARE SOLUTIONS Product Systems restoration and maintenance procedures and troubleshooting.

Stone Identification Chart

Surfaces	Physical Characteristics	Reactive To Acids	Hardness
Marble 	MARBLE Available in many earth tone colors; always has a "vein-like" appearance. Low to moderate hardness. May have high polish or honed surface. Usually has 90° edges.	Yes	Soft to Moderate
Limestone 	LIMESTONE Available in many earth tone colors; may have a "fossil" appearance in pattern. Low to moderate hardness. May have high polish, honed or textured surface. Usually has 90° edges.	Yes	Soft to Moderate
Granite 	GRANITE Available in many earth tone colors; obvious "grainy", crystalline structure in pattern. Very hard surface. May have high polish, honed or flame-cut surface. Usually has 90° edges.	No	Hard to Very Hard
Slate 	SLATE Monolithic look; common colors include black, green, burgundy and rust color. Usually soft material. Can be easy to scratch; Traffic patterns are mostly caused by dust, dirt, sand. Absorbent; can be easily stained.	Yes	Soft
Terrazzo 	TERRAZZO Made by mixing portland cement or resin matrix with marble, stone or glass chips. Extremely durable floor. Moderate to very hard surface. May have high polish, or honed surface.	Yes	Moderate to Hard
Ceramic 	CERAMIC Man-made tiles (made from sand, silica and/or talc) that are fired to achieve superior hardness. Almost always glazed (matte or gloss appearance; non-porous). Edges are beveled (or rounded).	No	Very Hard

STONE CARE SOLUTIONS™ polishing, maintenance and protection products are classified by Underwriters Laboratories® for slip resistance.

Stone Care Solutions™

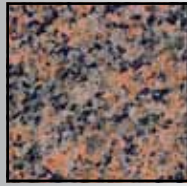

Marble Care

	MRP™ Marble Restoration Paste	RESTORE-IT™ Marble Polishing Creme	ONE STEP™ Crystallizer Spray N' Buff	NCL-2™ Rapid Action Stone Crystallizer
Uses	A fortified paste product designed to remove scratches and restore the original factory gloss to polished marble surfaces.	Ready-to-use solution that provides a high natural luster on polished marble, travertine, terrazzo and polished limestone.	Simple-to-use restoration system for polished marble, travertine, terrazzo and limestone.	A simple to use stone crystallizer to restore marble, terrazzo, and limestone floors.
Benefits	<ul style="list-style-type: none"> • Aggressive scratch removal. • Creates a true dazzling shine on even difficult to polish marble surfaces (such as black marble, limestone and terrazzo). • Works on worn marble surfaces and those that have not responded to other marble polishing compounds or crystallizers. 	<ul style="list-style-type: none"> • Repairs worn areas, water marks and dullness. • Polishes the surface to a brilliant shine. • Allows natural stone to breathe. • Classified by Underwriters Laboratories for Slip Resistance. 	<ul style="list-style-type: none"> • Dries as you buff and therefore requires no messy clean-up. • Newly restored surface will resist scuffs and scratches. • Classified by Underwriters Laboratories for Slip Resistance. 	<ul style="list-style-type: none"> • Rapidly repairs worn areas. • Polishes the surface to a brilliant shine. • Allows natural stone to breathe. • Resists scuffs and scratches. • Dries as you buff, requires no messy cleanup.
Coverage	3,500 - 5,000 sq. ft. / 10 lb. tub	2,500 - 5,000 sq. ft. / gal.	5,000 - 10,000 sq. ft. / gal.	2,500 - 5,000 sq. ft. / gal.

Ceramic Tile Care

	SCOURGE™ Ceramic Creme Cleanser	SOIL-LOK™ Penetrating Grout Sealer
Uses	Scouring cleanser for ceramic tile, porcelain tile, mosaic tile, vitrified porcelain, marble and glazed ceramic showers.	Water-based penetrating sealer that repels oil, dirt and moisture to keep grout looking like new.
Benefits	<ul style="list-style-type: none"> • Deep cleans ceramic tile surfaces. • Removes grease, body oils, soap scum. • Effective grout cleaner for all non-polished ceramics and porcelain. 	<ul style="list-style-type: none"> • Prevents staining from oils, dirt and hard water deposits. • Allows vapor transmission. • Odor-free formula; for indoor or outdoor use. • Detergent washable.
Coverage	2,000 - 3,000 sq. ft. / qt.	1,000 - 1,500 (linear) ft. / qt.
Availability	12 x 32 oz Bottle: Item # 2520-45	12 x 32 oz Bottle: Item # 2521-45
		

“Ceramic Tile Care products offer an exceptional system for proper cleaning and protection, whether the surface is glazed or unglazed ceramic, monocottura or porcelain tile.”

Stone Protection

Why use SURFACE BARRIER?

Prior to any maintenance program, a protective barrier must be applied to prevent the floor from becoming permanently stained by juices, coffee, tea, oil, grease and other substances.

This barrier, known as a stone impregnator, will seal the pores of the stone without blocking vapor transmission which can structurally damage the stone surface.

UNTREATED

TREATED WITH SURFACE BARRIER™

The stone surfaces above were affected by mineral seal oil. On the left (untreated side), the oil has left an immediate stain, while the oil on the right side (treated with SURFACE BARRIER™) has "beaded-up" and can be removed easily without staining the stone.

SURFACE BARRIER™ Water-based Fluoropolymer Impregnator

A safe effective way to create a protective shield on all types of stone surfaces.

- Water-based, odorless, VOC Compliant formula.
- Allows stone to breathe.
- Non-flammable.
- For indoor and outdoor use.
- Non-silicone based.

1,000 - 2,000 sq. ft. / gal.

Learn Stone Care the right way...

The instructor, Russ Magnuson

With over 30 years in the stone restoration business, Russ is an expert on stone restoration and maintenance, and will provide you with step-by-step procedures for proper identification and care of a wide variety of stone and ceramic surfaces.

- **Hands-On Training**
- **Stone Care Troubleshooting**
- **Surface Identification**
- **Restoration/Maintenance & Certification**

This intensive training program provides a comprehensive review that includes:

Seminar Training:

Stone Geology and Identification, Fabrication, Physical and Chemical Testing techniques, NCL Product System Overview, Procedures for Restoration, Polishing, Maintenance, Stain Removal, Protection and Surface Troubleshooting.

Hands -On Training:

Overview of NCL Stone Restorations of diamond honing and surface polishing (natural polishing and crystallization), Ceramic Tile Cleaning and Restoration, Sealer Application, Surface Troubleshooting.

Training Agenda:

- Introduction
- Stone Care Surfaces
- Maintenance Methods
- Hands-On Training
- Marble & Granite
- Questions & Answers

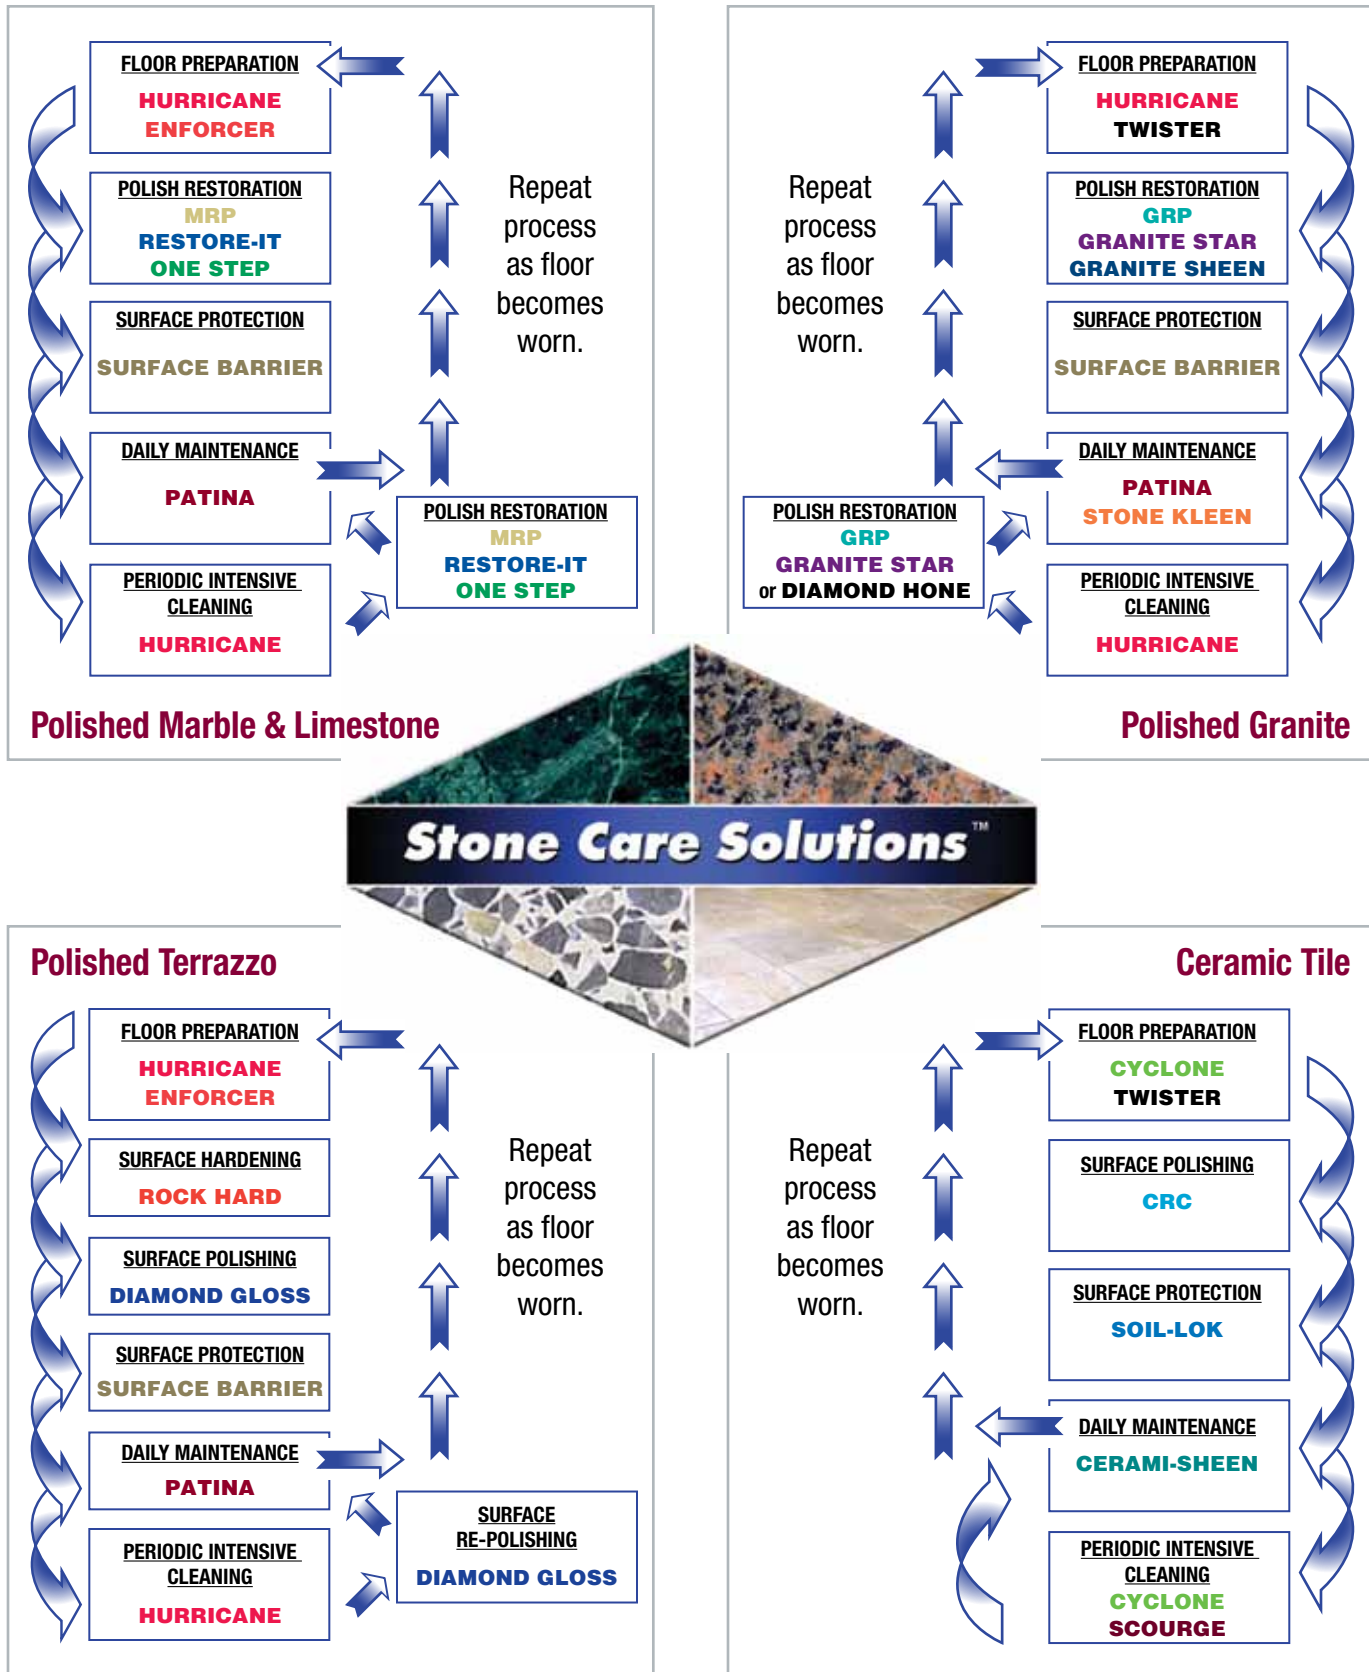

*Greater Success & Confidence
through Knowledge*
