

Synthetic Floors Cleaning & Protection Program

Proper care and maintenance of synthetic floor surfaces is essential for long term surface beauty and protection. The "Flexi Floor Care System" allows for the removal of soil as it protects the surface from scuffs, marks, scratches while it enhances the gloss of all synthetic surfaces.

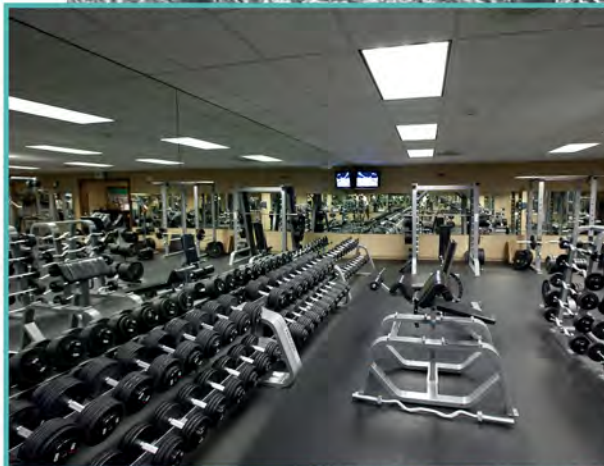

Flexi-Clean™

Intensive Rubber Cleaner and Grease Remover

An advanced formula for safely cleaning all types of synthetic flooring. FLEXI-CLEAN™ removes grease and heavy soil without harmful solvents or caustics. Ideal for use on industrial floors and many other environments. May be used manually or with an automatic scrubber.

PRODUCT BENEFITS

- Neutral pH Formula
- Safely cleans synthetic surfaces
- Contains no caustics
- Quickly emulsifies grease and oil

Flexi-Sheen™

Rubber Wax and Conditioner

An exceptional blend of waxes, detergents, polymers and gloss enhancers. FLEXI-SHEEN™ can be used as a routine/daily cleaner or as a mop-on restoration product after cleaning with FLEXI-CLEAN™. Cleans, conditions, protects and beautifies in one step. Recommend for use on all types of synthetic floors. Floor surface is cleaned while a water resistant coating remains that will improve slip resistance, improve gloss and durability.

PRODUCT BENEFITS

- Protects floor surface
- Improves slip resistance
- Will not build-up or yellow
- May be high speed buffed to an excellent gloss

IDEAL FOR USE ON: • Linoleum • Rubber Floors • Studded Rubber Floors • Luxury Vinyl Tile (LVT) • Synthetic Floors • No-Wax Floors

IDEAL FOR USE IN: • Industrial Plants • Cafeterias • Nursing Homes • Health Clubs • Schools • Many Other Applications
