SPORTS FLOOR PROGRAM

Performance driven Sports flooring solutions!

NCL® Sports Flooring Program is specifically developed to polish, clean and maintain high quality wood sports flooring. NCL® Sports Floor Program is a safe, economical, effective "World Class Solution" for wood sports flooring.

Water-Based, VOC Compliant Wood Care

NCL® offers an advanced technology water-based wood floor coatings. Products that are designed to provide the ultimate in durability and performance with superior resistance to scuffing, soils and black heel marking.

These water-based product complies with federal VOC standards, as well as all state and local VOC regulations. They promote worker safety and a healthier indoor environment while providing outstanding beauty and durability for every flooring situation.

Years of Beauty, Safety and Performance

Wood floors in a modern school represent much more than just a gymnasium. They are a focal point for school activities and a source of great community pride. The NCL® Sports Floor Program™ will provide your wood floors with many years of beauty, safety and outstanding performance.

NCL® Sports Floor Program™ provides a simple, complete line of products that can cost effectively maintain wood floor surfaces and achieve maximum performance. The finishes are an easy to use, environmentally preferred, water-based, single component system.

NCL's breakthrough wood finish technology improves performance while simplifying product application and maintenance. Now it is easy to maintain attractive, high performance wood floors with confidence in your facility using NCL® Sports Floor Program™.

One Component vs Two Component

With new, innovative technology, **GymShield™** Water-based Urethane-Acrylic Wood Finish single component systems out-perform "market standard" two component finishes.

World Class Cleaning & Hygiene Solutions™

... that you expect from NCL.
